

The 12-volt ecological evaporative  
air conditioner for motorhomes,  
vans and caravans

**Viesa Holiday X:**  
**fresh wellbeing in freedom**

# The 12-volt eco-friendly evaporative air conditioner

## Unbeatable autonomy even in free camping

Viesa Holiday X is the **evaporative air conditioner for motorhomes, vans and caravans** that harnesses the power of water evaporation to provide a cool, natural indoor climate; it is powered by just 12 volts and offers greater autonomy and freedom than ever before.

You can say goodbye to generators, inverters and power stations, with Viesa Holiday you can enjoy **cool, comfortable temperatures wherever you go**, thanks to its **low power consumption, averaging 1.29 Ah**.

 12  
Volts

**40% smaller  
40% lighter  
and much more...**

*Compared to  
Viesa Holiday 3s*

## Suitable for everyone, including animals

From a hike in the mountains to an adventure by the sea, **camping or free camping**, Viesa Holiday X is the perfect partner to maintain a pleasant and relaxing indoor environment **for the whole family, including our animal friends**.

Ideal for off-road travellers, digital nomads, and **anyone who loves to travel**. With Viesa Holiday X, comfort and sustainability combine, creating a perfect synergy for people who want to **travel responsibly and without giving up**.

## 12 Volts and low consumption

It connects to the service battery, no inverters or generators are needed, the average consumption is only 1.29 Ah and, if you can additionally have a solar panel, you no longer have to worry about autonomy.

## Environmentally friendly

VIESA Holiday X is **totally gas-free**, but not only: we have removed all metal parts and used an **innovative material (expanded polypropylene EPP)** that is **totally recyclable** and provides thermal and acoustic insulation.

## Pet friendly

**Perfect for dogs, cats**, etc., thanks to a natural air circulation system that prevents dermatitis and respiratory problems. No more worries about running errands or visiting attractions, you can leave your furry friend cool and comfortable in the caravan with Viesa\*.

## Featherweight: now even lighter

The smallest and lightest on the market, perfect for freeing up roof space for solar panels and other accessories. **At just 11,3 kg**, it will become your indispensable ally.

## Use it on the go, anywhere, anytime

Long journeys won't be a problem anymore. Viesa Holiday can be used both while stationary and on the move, guaranteeing **fresh air for passengers** even during the journey and snack or motorway service station breaks.

## Italian design and manufacturing

**100% Made in Italy**: design, planning and production entirely Italian, with focus and care on detail. Viesa Holiday X is produced in Tuscany, by ITALCOLVEN based in Montemurlo (PO).

*\*Always provide your furry friend with fresh food and water. Don't leave them alone for too long, and make sure to always leave a small opening for air circulation.*

**Free to Travel**  
**Free to Explore**  
**Free to Live**  
**Free to Love**  
**Free to Dream**
